

MARGARETA DAEPP Simply radical

Musée Ariana, 27 April–24 September 2023

PRESS RELEASE

Geneva, 5 April 2023

The Musée Ariana is pleased to present *Margareta Daep. Simply radical* from 27 April to 24 September 2023 in the space dedicated to contemporary creation. At the crossroads of art and design, Margareta Daep's works reveal the maturity of an enlightened and uncompromising artistic path.

Margareta Daep (Switzerland, 1959) is deeply attached to the medium of ceramics and to three-dimensionality. Her world is marked by silence, rigour, poetry, colour, emptiness and space, resulting in deceptively simple works, which are both lively and serene.

Among the artist's peregrinations, Japan occupies a privileged place. From her various stays for residencies and exhibitions in the Land of the Rising Sun, she has brought back forms, motifs and techniques that she has then adapted to her own world.

This monographic exhibition is by no means a retrospective of a rich career, but rather a stage. The artist closes a fruitful chapter, that of Japan, and thus opens up new fields and new perspectives.
